Waikanae, 5250
New Zealand

17th December 2013

Dear Barry,

Reference: testing the Showerbuddy Global Limited SB6 Roll-In mobile shower chair / commode to 160 kg user weight, our Laboratory reference is 492015.

This letter is to advise you that this Laboratory has finished testing your product to the following Standard method: AS/NZS 3973:2009 *Shower / toilet chairs, Mobile and Static* (except materials and surface finishes).

The official nine (9) page report, dated 17th December 2013 and referencing job number 492015, identifies the sample, the test documents and the testing facility. All conformances with the AS/NZS standards are indicated in the report.

The Showerbuddy Global Limited SB6 Roll-In mobile shower chair / commode, as represented by the test sample, including the supplied documentation and labelling as stated in the test report, complies with the relevant requirements of AS/NZS 3973:2009 *Shower / toilet chairs, Mobile and Static* (excluding the methods indicated in the report as "not tested") for user mass 160 kg with exception to the following:

- The sample supplied for testing was fitted with 100 mm diameter castor wheels with dual tyres. Clause 6.9(g) of the above referenced standard states the requirement for wheel diameter to be 125mm or greater. As tested, this chair passes all requirements for strength, durability and stability when fitted with 100mm wheels, however full compliance to this standard cannot be claimed due to the size of these wheels not meeting the requirements of AS/NZS 3973:2009.

Please do not hesitate to contact us if you have any enquiries or comments regarding the test.

Kind regards,

Wayne Wurfel
